

Wellbeing Health Check

PURPOSE

A Health Check with MedPro is an individual appointment with a Registered Nurse, who will assess your physical and psychological wellbeing. You will receive your results immediately, and these are discussed with you during your appointment. You will also be given your own confidential results booklet, which provides a record, as well as information on what was tested. Although our health checks will not provide any diagnosis, they do provide valuable information and insight to help guide your next steps. Your nurse will let you know if you have test results that are outside of the normal range, and if so, will advise you to follow up with your family doctor to discuss the results. Our health checks are fully confidential, results are stored securely and are not shared with any third party.

PRIVACY

Any information and personal data gathered from you for the purpose of providing you with health check services from either MedPro or an independent contractor who provides services to you on behalf of MedPro, is to assist in your treatment, for quality assurance purposes and to fulfil legislative requirements. No personal information will be shared with third parties. By completing the consent form with the nurse on the day you are consenting to the matters outlined above.

Please note when booking, the policy holder of the Southern Cross Medical Care Society policy you book under will be notified once you have had your annual health check with MedPro. If you aren't comfortable with the policy holder knowing you had this health check please do not continue booking. MedPro will have access to limited information about you in Southern Cross' system (such as your name, contact details, your Southern Cross member identifier) to help validate and book your health check. Southern Cross will use the record this creates to process and analyse health check uptake. Southern Cross will not receive any health information from your MedPro check.

Your rights provided in the Health Information Code and the Privacy Act 2020 will be respected, including your right to access and correction of any information about you. You can view our full privacy statement on our website:

<https://www.medpro.co.nz/privacy-statement/>

CONFIDENTIALITY

MedPro is fully compliant with both our legal and ethical obligations regarding confidentiality.
